About Me

I'm Preethi studying M.tech software engineering fourth year at Vellore institute of technology, Vellore. I'm passionate about writing and speaking. I'm specialized in creative designing and website making. In my spare time, I do freelance of making logos and websites. I completed my higher secondary education at National Higher Secondary School in Gudiyattam and I secured 93% in my HSC and 98% in my SSLC.

I'm a very good team player and a quick learner. I'm a core member of the IEEE WIE chapter in my college and also I'm RJ in my college community radio. I write technical blogs also which will be useful for me to understand the concept deeper. Also, I have quite interest in writing so I write technical blogs and I write content for the podcasts also.

I'm also volunteering in an NGO. Currently, I'm quite interested in making apps so I'm learning app development technologies. I'm learning Flutter and MERN stack technologies right now and looking forward to create project using those technologies.

Academics

SSLC

I secured 97.6% in my SSLC and I secured school first. I studied in National Higher Secondary School, Gudiyattam, Vellore district, TamilNadu

2015-2016

2017-2018

HSC

I secured 92.5 in my HSC. I studied in National Higher Secondary School, Gudiyattam, Vellore district, TamilNadu

The collage displays three distinct project outcomes. On the left is a responsive website for 'Bharathi Tamil Academy' with a blue header and white content area. In the center is a heatmap visualization with a color scale from 0.0 to 1.0. On the right is a website for 'COVID-19 Medical Center & India' with a blue header and a table of medical colleges.

Created an ReactJs Webpage at Hackathon

Created a responsive webpage that fetches information from API. ReactJs framework used and it was created during the VIT Hack Hackathon

Experiences

Head Judge at Technovation

I was a Student Mentor and Head Judge in Technovation Challenge which helped me to communicate to different students and got the opportunity to analyze real-time problems and solutions.

Core member at IEEE WIE

I'm a core member in the technical domain in IEEE WIE. There I got an opportunity to conduct an online Tech-event and I learned team skills. I was a part of web development team for chapter Hackathon.

RJ at Community Radio

I'm an RJ at my college community Radio. There, I got an opportunity to enhance my communication skills and I conducted an event for the students which helped me to develop my team management skill.

Internships

EtutorBoard

I've created the math question patterns using their native tool. During this internship, I learned the basics of regex and I got an opportunity to perform my Communication skill and Presentation skill

2019

Present

Arjava Technologies

Currently, I'm working as a part time intern in Arjava Technologies.

Services

	Graphic Design <i>I design logos for brands and some small scale companies</i>	
Website Creation <i>I create websites for the small scale products and companies</i>		Brand Strategy <i>I suggest ideas for product branding and social marketing</i>

Freelance

I'm quite interested in making websites and I found my passion in designing also. In my spare time, I do websites for small scale business
